

Moody Insurance Agency, Inc.

List of Products, Services and Carriers

Insurance Products

Moody Insurance offers a varied portfolio of personal, commercial and liability insurance products tailored to meet each client's needs.

- **Commercial Lines:** Clients work with Moody to select appropriate coverage for general liability, property, inland marine, umbrella, employment practices, directors and officers, life and disability.
- **Group Benefits:** Moody's full-service Employee Benefit Department offers a wide range of employer-provided benefits, including individual life, group life, medical, dental, short- and long-term disability, vision plans, pension, cafeteria/flex plans, profit-sharing and 401(k) plans. Moody also provides a full range of individual life products for key employees, buy-sell agreements and estate planning needs.
- **Builder's Risk:** The builder's risk policy insures buildings or structures during construction, renovation or repair, when a building has increased risk of damage from the elements. Moody's policy considers the increasing value of a structure during construction and addresses the interests of the owner, general contractor and subcontractor.
- **Surety Bonds:** Moody's experienced staff handles surety bonds for a variety of industries, from construction companies to financial institutions to law firms.
- **Workers Compensation:** In addition to workers compensation products, Moody's agents advise clients on how to use safety programs, deductibles, designated medical providers and certified cost containment to reduce workers compensation costs.

The agency's most prominent workers compensation program was launched in 1998 with the Colorado Roofing Association. Participating roofing contractors must meet stringent criteria, but are then eligible for preferred pricing and attractive annual dividends. Since 1998, this program has paid out more than \$1.5 million in dividends to participating roofing contractors.

- **Personal Lines:** Moody offers a complete line of home, auto, health, life and disability coverage.

Agency Services

- Moody Insurance agents have extensive experience working with clients in the construction and building industries, as well as with large property, distribution, carrier and manufacturing clientele.
- The agency offers in-house risk management services including proprietary products, claims management, loss control, information management and property appraisal services.
- Moody Insurance develops traditional brokerage, alternative risk and self-insured plans based on each client's exposures, needs and management style.
